Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Severn Trent main security tender event

II.1.2) Main CPV code

- 35120000 - Surveillance and security systems and devices

II.1.3) Type of contract

Supplies

II.1.4) Short description

In June 2022 Severn Trent Water carried out a site security systems and equipment category market testing RFI exercise via Achilles.

Following development of our site security category strategy for AMP 8 we will be approaching the market via a regulated procurement event using FTS.

The Main Security tender event will encompass several specialist "Lots" and contracts to enable site security systems and equipment to be upgraded and maintained across the Severn Trent and Hafren Dyfrdwy geographical footprint, and covering the AMP8 period (2025-2030) e.g., as

*Lot 1 Electronic Security (Capital framework / Maintenance agreements)

*Lot 2 Physical security (Capital framework only)

*Lot 3 Security IT network services (Maintenance agreement only)

*Lot 4 Security fencing and gates (Capital framework / Maintenance agreement[automatic gates])

*Lot 5 Tier 1 Aggregator (encompasses Lot 1/2/4) (Capital framework only)

The outline procurement timetable is to commence the main security tender event in 2Q of 2023, and execute contract agreements in 1Q 2024.

Prior to launch of the event we plan to hold an online supplier forum to present our

contracting, and procurement strategy to the security category supply-chain and interested parties.

To register interest in attending the online Teams event (planned to be held circa. mid to end of May), please email: sacha.ryder@severntrent.co.uk with the following contact information and the subject line "ST Security Supplier Forum":

- Company name
- person name
- email address

II.1.6) Information about lots

This contract is divided into lots: Yes

The contracting authority reserves the right to award contracts combining the following lots or groups of lots:

Each Lot contract framework agreement or maintenance service agreement will be awarded on its own merits.

There is no "maximum number of lots" prescribed, however due to the specialist nature of the services required in each "Lot" we expect "tier 2" specialist organisations to be more likely to be able to fulfil the requirements of the Utilities, in each sub-category "Lot" requirement. (Except Lot 5 which is an aggregate Lot for major projects)

II.2) Description

II.2.1) Title

Electronic Security

Lot No

1

II.2.2) Additional CPV code(s)

- 35120000 - Surveillance and security systems and devices

II.2.3) Place of performance

NUTS codes

- UKF - East Midlands (England)
- UKG - West Midlands (England)
- UKL - Wales

Main site or place of performance

Severn Trent Water region and Hafren Dyfrdwy Water regions (regional maps will be provided). With the maintenance agreements some scope may be specific to a geographical requirements (i.e. separate for ST and HD)

II.2.4) Description of the procurement

Contracts will be put in place for electronic security measures to secure water site assets; i.e. Intruder detection systems, CCTV, access control, sensors etc.

Contracts will be for separate capital frameworks, and maintenance agreements.

Geographical scopes will be separate for HD regional maintenance requirements.

Our requirements will cover goods and services.

II.2.14) Additional information

Prior to launch we will hold an online supplier forum to present our planned event, contracting, and procurement strategy to the security category supply-chain and interested parties.
