Suppliers that are yet to receive their Ofsted inspection and rating, and registered before 10th February 2026, will be required to explain how they provide quality care in line with the Social care common inspection framework (SCCIF) Social care common inspection framework (SCCIF): secure children's homes - GOV.UK

## **Technical ability conditions of participation**

Suppliers must demonstrate that they have relevant experience. This will be assessed as a pass/fail criterion. A pass can be achieved in one of the following ways, (otherwise

relevant experience will be assessed as a 'fail' and the Supplier's tender will be excluded from the procurement):

- The Supplier (if not a consortium) demonstrates experience of at least one relevant contract examples and of a similar nature and value to this contract opportunity from within the last three years which reflects the requirements of this contract, outlined in Appendix B: Specification; or
- The Supplier (if not a consortium) does not have at least one contract example but demonstrates in the Procurement Specific Questionnaire that they have relevant experience of a similar nature and value to this contract opportunity within the last three years. The response should include justification on why the experience is relevant and details for a reference person that the Council can contact. This experience should be reflective of the requirements outlined within Appendix B: Specification; or
- Where the Supplier is relying on an Associated Person to meet the technical ability, there are at least two relevant contract examples of a similar nature and value to this contract opportunity. The examples should cover both the Supplier and the Associated Person, or one example relating to the Supplier's experience and one relating to the Associated Person's; or
- For consortium bids involving more than two parties, three relevant contract examples of a similar nature and value to this contract opportunity should be provided covering the principal members of the consortium. Where this is not possible (e.g. if the consortium is newly formed or a special purpose vehicle is to be created for the contract), three separate examples should be provided between the principal member(s) of the proposed consortium or members of the special purpose vehicle or sub-contractors (three examples are not required from each member).

### Business Continuity

Suppliers must provide their business continuity plan and provide details on how they intend to ensure continuity of supply for this contract.

Suppliers must clearly demonstrate how they will ensure the provision of supported accommodation for asylum seeking children in the event of major disruption. The response should outline the risks to service/supply delivery and the mitigation plan to overcome this.

This will be assessed as a pass/fail criterion and suppliers that are unable to demonstrate an effective business continuity plan will fail and the Supplier's tender will be excluded from the procurement.
