Contract

## AUIP Sensor Package

Offshore Renewable Energy Catapult

UK7: Contract details notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-012388

Procurement identifier (OCID): ocds-h6vhtk-04ee95 ([view related notices](#))

Published 1 April 2025, 7:05pm

## Scope

## Description

As part of our Innovate UK-funded project, we are required to develop an offshore wind farm simulated environment where robotic developers can test and validate their systems. To ensure the simulation

accurately reflects real-world conditions, we will conduct underwater mapping inspections of key areas of interest, such as the DARE Centre, Grimsby Docks, and LDT. These inspections will allow us to build true-to scale underwater environments, ensuring that objects and obstacles encountered in simulation match those found in real-world operations.

## Contract 1

### Supplier

- [Frontier Robotics](#)

### Contract value

- £42,378 including VAT

Below the relevant threshold

### Date signed

18 March 2025

### Contract dates

- 2 April 2025 to 1 May 2025
- 1 month

### Main procurement category

Goods

## **CPV classifications**

- 42997300 - Industrial robots

## **Contract locations**

- UKC21 - Northumberland

---

## **Procedure**

### **Procedure type**

Below threshold - without competition

---

## **Supplier**

### **Frontier Robotics**

The National Robotarium, Heriot-Watt University
