II.2.4) Description of the procurement

Provision of enabling (turnkey) works associated with SPECT/CT Gamma Camera System at Royal Hospital for Children.

The existing equipment shall be disconnected, removed from site and disposed of unless otherwise instructed by the Board.

The design shall take account of the current room layout and departmental operations modifying the space to meet current design standards and existing patient flow arrangements. Pre-installation works shall be through a turnkey arrangement which will be required to prepare the installation to a clinical operational standard, this is expected to include, but not be limited to re-wiring, plumbing, ventilating, chilling, lead lining, decoration etc. Provision for data and telecommunication shall be made in liaison with Board representatives. Dedicated central server rooms are distributed across the building for the purpose of networked resiliency and bidders should confirm any requirements for networking and data integration with these facilities.

Pre-installation work may include the following:

- Any required radiation protection works as necessary
- Re-wiring and provision of appropriate power supplies and distribution systems to comply with electrical legislation
- UPS/IPS systems and re-wiring
- Earth bonding system and re-wiring
- Levelling of floors if required

- Finishing of floors, walls and ceilings
- Dry lining, room decoration and fitments
- Cleaning of room prior to handover
- Provision of new or extended plumbing, ventilation, heating and cooling, where necessary
- Upgrading or the addition of IT and telecommunication infrastructure where necessary

II.2.5) Award criteria

Quality criterion - Name: Overall Quality / Technical Criteria / Weighting: 20

Cost criterion - Name: Overall Commercial Criteria / Weighting: 80

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date
