DLSITT1054

Description

Located on the Harwell Science and Innovation Campus in Oxfordshire, Diamond Light Source (DLS) is a leading-edge facility for science, engineering and innovation. Diamond allows researchers from academia and industry to investigate the structure and behaviour of the world around us at the atomic and molecular level.

To continue delivering the world changing science that Diamond enables, the facility is being upgraded to Diamond-II, a coordinated programme of development that combines a major machine upgrade with new instruments and complementary improvements to optics, detectors, sample environment and delivery capabilities, and computing, as well as integrated and correlative methods. This will be transformative in speed and spatial resolution and will offer users streamlined access to enhanced instruments for life and physical sciences.

The scope of this contract is to carry out the detailed design, manufacture, quality control,

magnetic measurements and delivery to Diamond of a total of 160 ferrite-cored Fast Corrector Magnets of two different types, including 1 pre-series magnet of each type, in accordance with the specification.

Total value (estimated)

- £450,000 excluding VAT
- £540,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 1 August 2025 to 1 September 2026
- 1 year, 1 month, 1 day

Main procurement category

Goods

CPV classifications

- 31630000 - Magnets

Contract locations

- UKJ14 - Oxfordshire
-

Participation

Particular suitability

Small and medium-sized enterprises (SME)

Submission

Tender submission deadline

6 May 2025, 12:00pm

Submission address and any special instructions
