II.1) Scope of the procurement

II.1.1) Title

Vehicle and Components Testing Services Framework

Reference number

K280021593

II.1.2) Main CPV code

- 71356300 - Technical support services

II.1.3) Type of contract

Services

II.1.4) Short description

DVSA requires vehicle testing and emissions investigations, to check that in-service vehicles comply with the relevant guidelines, regulations and emissions standards for their respective categories. For emissions, attention will be paid to the range of pollutants and any disparities observed under the different test conditions.

In addition to vehicles, many vehicle components will require testing as well, for example catalytic converters, tyres, glass, and lamps. These are often tested on special rigs, in specialist laboratories. The technical specification in Annex 1 lists the main automotive type approval requirements that are likely to require testing, inspection and analysis. In addition to the type approval testing and analysis requirements, DVSA may require services to provide testing, consultancy or analysis on vehicle safety standards.

Suppliers must be able to demonstrate the below to join the framework and throughout the framework term:

ability to provide testing and results which meet approval standards.

capacity to deliver testing and results in a timely manner.

ability to store vehicles/components at the facility in a secure environment.

workshop facilities for the carrying out of modifications to vehicle and components.

staff's qualifications and competence to conduct the testing.

To apply for this opportunity, please follow the link below:

<https://dft.app.jaggaer.com/>

You can do this by clicking the grey click here to register button on the link above and following the instructions.

Please note that you will require a DUNS number (Dun and Bradstreet) to register. If you do not know your number access the following link to find yours:

<https://www.dnb.co.uk/duns-number/lookup.html>, click on the D-U-N-S number section. If a DUNS number is not found there is guidance on how to acquire one in the same place.

Should you have any technical issue registering on the system please contact the Jaggaer Helpdesk in the first instance:
