The SGN Group owns and operates one of the largest and most innovative gas distribution networks in GB, operating across Scotland, Southern England and Northern Ireland. The Group also continues to grow in the non-regulated space by accelerating commercial opportunities.

SGN operate 24 hours a day, 7 days a week, 365 days a year. The size and makeup of the operational fleet is driven by either the necessity to be agile and responsive to emergency situations for both repair and gas escapes, or as a means to transport operatives and equipment to carry out scheduled maintenance or upgrade works.

The scope of this strategy is for a services framework for the provision of fuel cards for commercial vehicles and plant. Further detail is provided in the specification.

The initial term will be 3 years with the option for SGN to extend by a further 2 years (on 1 year increments).
