Notice number: [2022/S 000-031382](#)

Section VII. Changes

VII.1) Information to be changed or added

VII.2) Other additional information

NHS London Procurement Partnership will add an additional category to the existing Health Apps DPS; Category 26 – NICE Accredited Apps An evidence-based therapeutic intervention delivered through software to prevent, manage, or treat a medical disorder or disease. They are typically accessed via a smartphone app or online and engage the patient without the involvement of a clinician. The evidence-based therapeutic intervention must be registered as a medical device and must be regulated by the MHRA for use in the UK. The evidence-based therapeutic intervention must be compliant with the Digital Technology Assessment Criteria (DTAC). Sub-Category 26.1 – Digital cognitive behavioural therapy for adults with insomnia Digital cognitive behavioural therapy for adults with insomnia. An evidence-based therapeutic intervention delivered through software to prevent, manage, or treat insomnia and insomnia symptoms. This intervention will be accessed via a smartphone app or online and engage the patient without the need for prescription or referral. The evidence-based therapeutic intervention and its use in providing care and treatment to users should meet all relevant regulatory requirements. The evidence-based therapeutic intervention must either possess existing proprietary Randomised Controlled Trial (RCT) or Real World (RWE) evidence demonstrating safety and efficacy or have plans to generate such evidence¹. The evidence-based therapeutic intervention must be compliant with the Digital Technology Assessment Criteria (DTAC). NICE Early Evaluation Assessment (EVA) products only
