WS2710824815

Description

This procurement is for the supply of door parts such as electrical motor, wiring chains, cables, driving screws, and seals from original equipment manufacturer (OEM) Wabtec, for the overhaul of the Metropolitan line doors project.

The parts being procured are partial replacement of the existing ones as confirmed following the condition assessments which were initially conducted by TfL in 2022 and a further assessment is planned for January 2026.

Direct award justification

Single supplier - intellectual property or exclusive rights

The reason for a direct award is as result of Faiveley Transport Tamworth Ltd, a 100% subsidiary of Wabtec being the original manufacturer who owns the intellectual rights to

these components. The parts are based on proprietary designs and require specific safety certifications, which means no other supplier can legally or practically produce them to the required standards.

Therefore, this direct award is in line with the permissible provisions under Section 41, Schedule 5 of the Procurement Act 2023 which calls for reason to award directly to the OEM in the absence of intellectual property and exclusive rights, with no reasonable alternatives to those goods. Any part/goods purchased from alternate supplier other than the OEM could result in disproportionate functioning of the door systems, thereby risking the functionality and potentially causing safety hazards on a running train.
