Award

## **Supply of Aviation Fuel for Resale: Solent Airport @ Daedalus**

Fareham Borough Council

UK5: Transparency notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2026/S 000-012590

Procurement identifier (OCID): ocds-h6vhtk-064e55 ([view related notices](#))

Published 11 February 2026, 4:35pm

## **Scope**

### **Description**

Supply, including delivery of the following aviation fuels for resale.

Volumes below are estimated initial volumes at day 1.

Supply to commence 1st April 2026

1) Jet A1 (~100,000l)

2) AvGas 100LL (~200,000l)

3) UL 94 (zero litres)

Supplier must be able to provide all relevant safety and aviation related certifications, compliances and documentation as required to lawfully supply aviation fuel for resale.

UL94 will be introduced, and the AvGas volume will be expected to reduce in a 1:1 ratio with UL94. Therefore supplier must be able to supply both and facilitate this transition.

Jet A1 demand is significantly higher due to one of our customers having a very high current use. Supplier must be able to confirm surety of supply to around 800,000l pa. However this demand is not expected to be long term so cannot form part of the minimum supply agreement.

The contract value in this notice is assuming the above demand continue for the whole 2+1 years. Even though this is unlikely. £780,000 including VAT is more likely to be value, but highest expected is posted here.

---

## **Contract 1**

### **Supplier**

- greenergy fuels ltd

### **Contract value**

- £2,040,000 including VAT

Above the relevant threshold

### **Earliest date the contract will be signed**

25 February 2026

### **Contract dates (estimated)**

- 1 April 2026 to 31 March 2028

- Possible extension to 31 March 2029
- 3 years

Description of possible extension:

1 year extendable by the Authority

## **Main procurement category**

Goods

## **CPV classifications**

- 09131000 - Aviation kerosene

## **Contract locations**

- UK - United Kingdom

---

## **Other information**

### **Conflicts assessment prepared/revised**

Yes

---

## **Procedure**

## **Procedure type**

Direct award

## **Direct award justification**

Single supplier - technical reasons

Given the operational requirement to transition from AvGas100LL to UL94, and for minimum levels to be transferrable between the two, a supplier who can supply both is required.

Using thorough market testing we have been unable to find a supplier who can offer this at the current requisite volumes.
