II.1.4) Short description

The new integrated EPR will need to support all care settings across the ICS including community and mental health, acute services, primary and social care. The strategic preference of the SSOT partners is that the integrated EPR supports as many services as possible.

The partners in Staffordshire and Stoke-on-Trent (SSOT) ICS are inviting suppliers to participate in this pre-market engagement process.

To help shape the SSOT system partner understanding of the health record solutions market and potential further developments and innovation, SSOT partners are asking suppliers to review this document and participate in the pre-market engagement activities (initially, Phase A: Supplier Questionnaire, then Phase B: 1:1 Supplier Engagement Sessions).
