This notice has been edited. The [previous version](#) is still available.

Opportunity submission deadline extended.

Scope

Description

Cambridge City Council (CCC) is enhancing the public cycle parking at the Queen Anne

Terrace (QAT) multi-story car park on Gonville Place in central Cambridge. The cycle parking at QAT addresses a strong local need due to its proximity to key facilities, including businesses, leisure and shopping areas, hospitality venues, green open spaces, and other amenities. Recreational and sports facilities are also available on site.

The proposed improvements include additional cycle parking spaces and enhancements to safety, security, and accessibility. There are two cycle parking areas at QAT: one inside the car park building and the other outside, which is not covered. Both are at street level. There is a demand for safe, secure, and accessible short-term and long-term cycle parking.

In the undercover cycle parking area, CCC plans to remove all existing cycle stands and ground anchors, adjust fence lines, and screed the floor before installing new cycle stands in a 'toast-rack' setup (consisting of two or more cycle stands securely attached to horizontal steel sections), cargo cycle parking bays with new ground anchors, and signage. An access-controlled area is also proposed, which will require a swing gate fitted with mag locks.

For the external cycle parking area, CCC proposes to remove all existing vegetation, including a semi-mature tree, and all existing cycle stands and concrete hardstanding. The area will then be excavated to install an engineered tree pit with a hardstanding area above, and new root-fixed cycle stands (each stand leg embedded into a concrete foundation).

After re-assessing the contract's advertised value, we believe the revised range (£70k-£90k) more accurately reflects the scope of work needed for the completion of the proposed improvements

Total value (estimated)

- £75,000 excluding VAT
- £90,000 including VAT

Below the relevant threshold

Contract dates (estimated)

- 1 May 2025 to 31 August 2025

- 4 months
