This contract is subject to renewal

Yes

Description of renewals

This contract is subject to renewal upon expiry of the initial term and any possible extensions. Details surrounding the contract term can be found within File 2 of tender documentation - Selection Stage Scope, Guidance and Instructions (section2.6).

The formal renewal process surrounding this contract will take place prior to the full contract term ending. At this point, a new service provider will be formally procured to resume contractual performance before the next scheduled iteration of this service requirement continues.

II.2.9) Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 5

Objective criteria for choosing the limited number of candidates:

An overall pass mark of 60% shall apply at Selection Stage evaluated against the requirements detailed within this Selection Stage document set. Potential Suppliers who do not achieve an overall score of 60% or higher will not be eligible for progression to formal Invitation to Tender (ITT) stage (Stage 2).

It is the University's intention to arrive at a short list of 5 Potential Suppliers for the ITT stage. The number of Potential Suppliers will be based on the top 5 percentage scores at or above the overall pass mark.

Where less than 5 Potential Suppliers meet or exceed the overall pass mark, only those Potential Suppliers who meet or exceed the overall pass mark will be invited to formal ITT stage.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.14) Additional information

This contract is NOT suitable for splitting into lots. The risk of dividing the requirement into Lots would render the execution of the contract excessively technically difficult, not cost effective and would undermine proper execution of the contract.

After conducting applicable research and modelling, the University of Southampton has concluded that splitting this contract into Lots would make this contract unnecessarily complicated from a managed service perspective. The Fire Alarm system is fully integrated with specialist equipment which must be tested inspected, serviced and repaired by the same Contractor.

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions
