C409773

Description

Barnsley Facilities Services (BFS), a wholly owned subsidiary of Barnsley Hospital NHS Foundation Trust and The Rotherham NHS Foundation Trust, are looking to procure a CAFM (Computer Aided Facilities Management) system.

The bidder MUST be able to provide all of the following functionality as a minimum:

Asbestos Management

Clear up to date asbestos record that captures identified materials, their condition, and associated risks so that organisations can manage safety and compliance effectively

Asset Management

Provision of a clear, structured asset register that captures essential information about each asset throughout its lifecycle, helping organisations manage, track, and maintain their assets efficiently.

Help Desk / Task Management

Provision of a clear, auditable workflow that tracks tasks from creation to completion, helping teams prioritise, organise, and monitor work efficiently while maintaining full visibility and oversight

Planned Preventative Maintenance

Provision of a clear and consistent way to plan, schedule, and monitor preventive maintenance, giving teams full visibility of upcoming work and helping them manage resources, safety, and asset performance more effectively.

Property Register Maintenance

Provision of a central, structured record of all estate spaces, helping organisations manage property information efficiently while supporting wider operational, compliance, and financial processes

Reporting and Dashboards

Functionality to provide clear, real time visibility of performance and compliance through accessible, filterable dashboards and reports that support effective monitoring, analysis, and decision making.

Resource Management

Functionality to help the organisations manage and deploy their workforce efficiently by giving clear visibility of staff activity, task progress, and resource demands to support effective planning and performance oversight.

Stores / Stock Management

Functionality to give the organisations clear control and visibility over stock levels and usage, helping them manage inventory efficiently and maintain availability while supporting better cost and resource planning.

Task Management Handheld Application

Functionality to enable field staff to manage and complete tasks in real time through a mobile app, giving them clear access to job details, asset information, and on site tools so

work can be carried out efficiently and accurately.

Total value (estimated)

- £846,000 excluding VAT
- £1,016,000 including VAT

Above the relevant threshold

Contract dates (estimated)

- 9 April 2026 to 30 June 2029
- Possible extension to 30 June 2033
- 7 years, 2 months, 22 days

Description of possible extension:

Two 2-year extensions to be included in the contract (a total of 4 years)

Main procurement category

Services

CPV classifications

- 48420000 - Facilities management software package and software package suite
- 72514000 - Computer facilities management services
- 48000000 - Software package and information systems

Contract locations

- UKE31 - Barnsley, Doncaster and Rotherham

Justification for not using lots

Single system and provider required due to requirement for interconnectedness.
