• UKI32 - Westminster

#### II.2.4) Description of the procurement

The route to market has yet to be determined and is dependant from the findings of this market engagement.

#### II.2.14) Additional information

We are looking for a system that offers:

- straight forward user interface to allow colleagues across the department to create bespoke, accessible e-communications
- segmented campaign lists to ensure we are always GDPR compliant
- user designated logins that have multi-factor authentication
- UK-based hosting in the cloud (however EU-hosting would be considered) that is fully DPA compliant
- the ability to authenticate and verify our domain(s)
- the ability to gain real-time metrics and reporting upon request
- great customer support that can answer our questions and provide technical support responsively

DHSC currently has circa 10 monthly campaigns which have a combined total of 200,000 to 250,000 sent emails. Audiences include internal stakeholders as well as external stakeholders where DHSC needs to communicate policy or governance changes, alongside general communication to staff across the department. The email marketing tool needs to flex according to the department's objectives and monthly workload.

Running this information gaining exercise will allow us to better understand the email marketing platforms currently available on the market.

DHSC would like to better understand the range of tools and functionality on offer from email marketing systems and how they can be used to deliver optimised and accessible ecommunications.
