Scope

Description

PackUK is looking to contract with up to 6 suppliers to assist with the delivery of an Improvement Action Process (IAP) for a named local authority (LA), using the IAP framework provided by PackUK, the Scheme Administrator for Packaging Extended Producer Responsibility (pEPR). The objective of this requirement is to test how well the process works in practice. To record the progress of producing an IAP for the named LA, highlighting issues encountered during the IAP production & how they were resolved. The IAP is intended to be a supportive process for the LA, whereby Improvement Actions necessary to improve the LA's effectiveness (sufficiently to meet its threshold) are identified, developed, agreed with PackUK & approved by the governance of the LA. To support the LA in achieving this goal, PackUK will fund a supplier, known as a Support Organisation to work with the LA in, identifying & developing improvement actions for the LA.
