Tender

Gaseous Hydrogen Supply for Experimental Programme

Health and Safety Executive

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2026/S 000-012878

Procurement identifier (OCID): ocds-h6vhtk-064f03

Published 12 February 2026, 1:02pm

Scope

Reference

T4883

Description

HSE require the supply of hydrogen gas for use during a research test programme. The gas is intended to be used by piping into an existing pressure reduction system which will meter the gas through to a flow management system.

The supply should be at least 500 barg (approximately 800 kg, other pressures may be accepted) and be capable of a hydrogen flow rate of at least 0.4 kg/s. The supplier should provide technical details for the mass flow rate capability of the system. The supplier should provide details of interfaces with the system and any other equipment requirements.

Two deliveries are required between 2027 - 2028. Please also include trailer rental in the quote, HSE expect to need to rent the trailer for a month for each delivery.

The gas supply is required for use at the HSE Buxton (SK17 9JN) test site.

Total value (estimated)

- £80,000 excluding VAT
- £96,000 including VAT

Below the relevant threshold

Contract dates (estimated)

- 1 January 2027 to 31 December 2028
- 2 years

Main procurement category

Goods

CPV classifications

- 24110000 - Industrial gases

Contract locations

- UK - United Kingdom

Submission

Enquiry deadline

27 February 2026, 1:00pm

Tender submission deadline

6 March 2026, 1:00pm
