Scope

Description

Subscription to Frauscher Insights Diagnostic System for Network Rail Wales & Western Route.

Frauscher Insights Diagnostics is a powerful real-time diagnostics solution that provides a centralised overview of all system components. It monitors the health status of all Frauscher elements in your railway system and supports predictive maintenance capabilities with enriched data.

Proactive notifications and immediate, detailed recommendations empower highly efficient troubleshooting. Via an intuitive, web-based user interface, it enables access to detailed status messages, error and warning information as well as predictive analyses (accessible anywhere, with an internet connection, for remote troubleshooting).
