Section II: Object

II.1) Scope of the procurement

II.1.1) Title

COV - Residential electric vehicle charging points

Reference number

COV - 10733

II.1.2) Main CPV code

- 31158000 - Chargers

II.1.3) Type of contract

Supplies

II.1.4) Short description

Coventry City Council is seeking to install initially between 220 to 300 electric vehicle charging points and parking sensors into residential locations within the City of Coventry for the use of residents and the general public. This Invitation to Tender (ITT) is to appoint a single supplier to support the delivery of this project to contract for the supply, delivery, connection, commissioning, maintaining and ongoing operation of the charging points installed as well as supply and install bay parking bay sensors at the locations. The Supplier will also be responsible for any electrical works along with schematics within the feeder pillars and cabling from the feeder pillars to the charge points supplied and installed.

II.1.5) Estimated total value

Value excluding VAT: £6,200,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKG33 - Coventry

II.2.4) Description of the procurement

Coventry City Council is seeking to install initially between 220 to 300 electric vehicle charging points and parking sensors into residential locations within the City of Coventry for the use of residents and the general public. This Invitation to Tender (ITT) is to appoint a single supplier to support the delivery of this project to contract for the supply, delivery, connection, commissioning, maintaining and ongoing operation of the charging points installed as well as supply and install bay parking bay sensors at the locations. The Supplier will also be responsible for any electrical works along with schematics within the feeder pillars and cabling from the feeder pillars to the charge points supplied and installed. The awarded supplier will be required to cover the cost of all ongoing maintenance, repairs, warranty management and provision of a back-office function for the charging points installed. It will also be necessary for the supplier to arrange the integration of their own back-office services with the bay sensors and the Council's Civil Enforcement Officers existing handheld devices. This collective integration platform will need to be provided to the Council's Parking Services department. The awarded supplier will also be required to provide/arrange meter installations and electricity supply for sites at their own cost and so any cost to be passed on by the Tenderer must be included in the submitted charging point pricing requested in Part 3. The Council will not accept invoices for these charges at a later date. The electricity connection will be from existing lighting columns, which are currently Balfour Beatty assets or through the connection provided by the local DNO within a dedicated feeder pillar. Coventry City Council will identify locations for the charge points called off under the contract. The Council will also arrange power supply connections and all the civils' work required for the installation of charge points called off under the contract.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date

1 September 2021

End date

31 March 2033

This contract is subject to renewal

Yes

Description of renewals

By mutual agreement after the initial term, renewals/extensions by one 3-year and one 2-year period

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: Yes

Identification of the project

Office for Zero Emission Vehicles (OZEV) Residential On-Street charge points for plug in vehicles scheme

Section IV. Procedure

IV.1) Description
