NUTS codes

- UKJ14 - Oxfordshire

Main site or place of performance

Oxfordshire

II.2.4) Description of the procurement

Purchase of Choke Windings for STFC ISIS

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

The design of the ISIS accelerator is completely unique in the world of accelerators, and is the only one of its kind in the world which requires chokes of this size. Trench has the manufacturing capability to actually produce chokes of this size and nature. All component parts of the chokes, including the windings, are 'bespoke' and are not available as off-the-shelf items; nor have they been supplied to any other customer. They are therefore, unique to ISIS. STFC does not currently have any details of the exact manufacturing methods required to construct these windings. The IP for this method is owned by Trench Austria GmbH, as well as all the technical drawings.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract

Contract No

UKRI-2888

Title

Purchase of Choke Windings for STFC ISIS
