Planning

Soft Market Test - Cunard Decarbonisation

Liverpool City Council

F01: Prior information notice

Prior information only

Notice identifier: 2021/S 000-013051

Procurement identifier (OCID): ocids-h6vhtk-02ba6c

Published 10 June 2021, 1:08pm

Section I: Contracting authority

I.1) Name and addresses

Liverpool City Council

4th Floor, Cunard Building

Liverpool

L3 1DS

Contact

Mr Roger Ruffles

Email

Roger.Ruffles@liverpool.gov.uk

Telephone

+44 1512330590

Country

United Kingdom

NUTS code

UKD7 - Merseyside

Internet address(es)

Main address

<http://www.liverpool.gov.uk>

Buyer's address

<http://www.liverpool.gov.uk>

I.2) Information about joint procurement

The contract is awarded by a central purchasing body

I.3) Communication

Additional information can be obtained from the above-mentioned address

I.4) Type of the contracting authority

Regional or local authority

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Soft Market Test - Cunard Decarbonisation

Reference number

DN548147

II.1.2) Main CPV code

- 45200000 - Works for complete or part construction and civil engineering work

II.1.3) Type of contract

Works

II.1.4) Short description

This is a request for information, and not a tender opportunity, although it may develop into one dependent on responses received. Respondents are requested to provide details of a solution capable of providing low carbon heat to serve the building space heating and hot water demand, in lieu of existing gas fired boilers. The solution may be in the form of equipment for the City Council to install, to a full turnkey solution, or anything in between. This is not a request for design consultancy support. Any significant refurbishment to the building is not deemed feasible due to the listed nature of the building and thus the LTHW temperature required to serve the existing systems is minimum 75°C. The equipment must be capable of being operational within 2 years of an investment decision being made. Ideally the proposed solution will be proven technology with sufficient in-use data to validate carbon savings. The submission of case studies to demonstrate this would be welcomed, with evidenced energy performance where possible.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKD7 - Merseyside

II.2.4) Description of the procurement
