The contractor is an SME

Yes

V.2.4) Information on value of contract/lot (excluding VAT)

Total value of the contract/lot: £624,996

Section VI. Complementary information

VI.3) Additional information

This is a Provider Selection Regime (PSR) intention to award notice. The awarding of this contract under Direct Award Process C is subject to the Health Care Services (Provider Selection Regime) Regulations 2023. For the avoidance of doubt, the provisions of the Public Contracts Regulations 2015 and the Procurement Act 2023 do not apply to this award.

The publication of this notice marks the start of the standstill period. Representations by providers must be submitted to the relevant authority via email to robert.kitt1@nhs.net by midnight (23:59 hrs) on 25/02/2026.

This contract has not yet formally been awarded; this notice serves as an intention to award under the PSR.

Decision maker: Deputy Chief Delivery and Strategy Officer, and Director of Strategic Commissioning.

No conflicts of interest were declared.

The service evaluation was reviewed against the 5 key criteria:

- Quality & Innovation
- Value
- Integration, collaboration & service sustainability
- Improving access, reducing health inequalities and facilitating choice
- Social value

These were then weighted as follows:

Quality and innovation (25%),

Value (25%),

Integration, collaboration and service sustainability (20%),

Improving access, reducing health inequalities and facilitating choice (20%);

Social Value (10%).

In determining the weightings for each of the criteria, our primary focus was on ensuring that the evaluation process reflects the key priorities and objectives of the service.

The existing provider was assessed against key criteria which were weighted according to importance in terms of service delivery and scored satisfactorily against the assessed criteria.

Quality & Innovation: The East Sussex MAS has been contracted to ICC since 2014 and has delivered consistently on KPIs. This contract extension is unlikely to significantly change the delivery of the service so it is not anticipated that quality will be affected.

Value: The East Sussex MAS operates within a contracted financial envelope. The service runs at full capacity, so has no financial slippage.

Integration, Collaboration, and Service Sustainability: TThe current services works within the geographical boundaries of East Sussex. However, there are relationships with other parts of the health and social care pathway including local authority colleagues, VCSE for patient and carer support and primary care.

Improving Access, Reducing Health Inequalities, and Facilitating Choice: The service provider is expected contractually to ensure that the service is accessible to all patients and that demographic and protected characteristics monitoring takes place in order to ensure that the service is representative of the local population.

- Equalities

The contracted minimum return for percentage of complete referrals with Protected Characteristics data is 90%.

- Patient Feedback

The contracted minimum return for patient satisfaction data is 30%.

Social Value: As a continuation of an existing service, this proposal will continue to have a positive impact on the local area through maintained / creation of employment.

Services are based in local communities in order to enable minimal travelling for individuals attending the service.

It is likely that this service also has a positive impact on urgent care, enabling individuals to receive a diagnosis and support at an early stage rather than a diagnosis during a crisis or social care deterioration.

VI.4) Procedures for review

VI.4.1) Review body

NHS Sussex Integrated Care Board
