## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

West of England Imaging Network - Imaging Framework

Reference number

BWPCIT001692-1

#### **II.1.2) Main CPV code**

- 48000000 - Software package and information systems

#### **II.1.3) Type of contract**

Supplies

#### **II.1.4) Short description**

Trusts across the West of England are committed to the implementation of a digital technology infrastructure enabling radiology image sharing. The West of England Target Operating Model for imaging across the Network is to transform and develop imaging services to support growth in activity and complexity of clinical care pathways resulting in improved patient outcomes. Pivotal to the delivery of this vision is securing the digital infrastructure to share images and associated information between providers and consumers of imaging services. This sharing of images must be safe, timely, resilient and efficient.

This is a procurement for a single supplier framework which will be awarded to one supplier only to allow all trusts in the West of England Imaging Network to call off from for the following 4 lots.

1 PACS

2 RIS

3 A sharing solution

4 Associated Storage

Any bidder will need to bid for all 4 lots to be considered. The framework will be open for the maximum period of 4 years for Trusts to call off from with contract lengths for an

anticipated 10 years as a maximum in a 5+3+2 contract, but may be for varying lengths in line with ambitions to have a co terminus end date for ease of network procurement at the end of the contracts.

The West of England Imaging Network consists of :

Gloucestershire Hospitals NHS Foundation Trust

Great Western Hospitals NHS Foundation Trust

North Bristol NHS Trust

Royal United Hospitals Bath NHS Foundation Trust

Salisbury NHS Foundation Trust

Somerset NHS Foundation Trust

University Hospitals Bristol and Weston NHS Foundation Trust

The aim of the framework is to allow Network Trusts to procure a single instance of PACS and RIS as and when it becomes viable in line with their current incumbent contracts. In addition, for the Trusts who are unable to join for a longer period of time due to their current contracts, this framework shall allow those Trusts to procure the sharing solution until such a time as they are able to join the single instance of PACS and RIS.

As the Network host, Somerset NHS Foundation Trust will be the host of the framework, and the procurement will be run through Bristol and Weston Purchasing Consortium and as such will use their e-procurement system SAP Ariba, bidders will need register to ensure access to the tender.

Details, timelines and values are subject to change. Please register your interest to [Fiona.Lowther@nbt.nhs.uk](mailto:Fiona.Lowther@nbt.nhs.uk) by the 3rd of April 2024. Response to this, although useful, is not mandatory and will not restrict suppliers from bidding.
