The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure without publication of a contract notice

- The products involved are manufactured purely for the purpose of research, experiment, study or development
- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

In accordance with regulation 4 of the Defence and Security Public Contracts (Amendment) (EU Exit) Regulations 2019 (SI 2019/697) this procurement falls to be regulated under the provisions of the Defence and Security Public Contracts Regulations 2011 as amended (in particular by SI 2019/697 and SI 2020/1450). Prior publication of a contract notice in the Official Journal of the European Union is no longer appropriate.

It is considered that the award of the contract without prior publication of a contract notice in the UK enotification service (as required by the relevant legislation) is lawful in accordance with Regulation 16(1)(a)(ii) of the DSPCR 2011 for technical reasons. It is believed that the services to be provided under the contract can only be supplied by the B.I. Engineering who are the original equipment manufacturer of the coolant cores. Only B.I. Engineering has the significant niche expertise and knowledge required, , and they have acquired specific experience in the repair and maintenance of the coolant LRUs. B.I. Engineering Limited hold the rights to the technical data in support of the coolant LRUs, including the baseline test procedures and output specifications to support repair, and the Authority does not hold sufficient rights in the designs to support competition. Furthermore, design and output integrity is required to be maintained in accordance with the OEM specifications due to the interoperability between the coolant LRUs and relevant vehicle power packs. Any deviation away from the original design may result in an increased the risk of power pack failure, affecting the overall performance and operation of the vehicle platforms.

Please note, Babcock Land Defence Limited is acting as agent on behalf of the Ministry of Defence, in the first instance interested parties may contact Babcock with queries relating to this procurement.

In the first instance interested parties who have queries regarding the above procurement should contact IRMProcurementRepairTeam@babcockinternational.com
