Notice identifier: 2025/S 000-013185

Procurement identifier (OCID): ocds-h6vhtk-04fd93

Published 4 April 2025, 3:41pm

Scope

Reference

PM3 - 13832

Description

Surrey County Council wishes to create a PMCT service. A PMCT is a scan of the deceased, conducted by a radiographer using a CT Scanner. The resultant scans are analysed by a GMC registered radiologist to produce an interpretation in the form of a digital autopsy report for consideration by the coroner.

To enable this service the existing temporary body storage facility at Bagshot would require capital improvement works and therefore the council invites prospective providers to submit options as to how the service can be delivered. Providers are to consider the following:

Option 1: Construct a platform located to the rear of the Body Storage Unit to accommodate either a semi - permanent modular build or articulated trailer unit housing CT Scanner and

control unit with covered corridor from the building into the CT unit.

Option 2: As per Option 1, plus conversion of one ground floor office into a clinical room for the examination of the deceased.

Option 3a: Convert the current ground floor office space of the body storage facility, into:

CT Scanning room with control unit

Clinical Room for the examination of deceased

Option 3b: Convert the current ground floor office space of the body storage facility, into:

CT Scanning room with control unit only

Contract dates (estimated)

- 1 January 2026 to 1 July 2026
- 6 months, 1 day

Main procurement category

Works

CPV classifications

- 45215146 - Pathology room construction work
