Procedure

Procedure type

Direct award

Direct award justification

- Single supplier - intellectual property or exclusive rights
- Additional or repeat goods, services or works - extension or partial replacement

Fleet Services are already using the software. Moving to a new system at this time would create significant disruption to services and cost significant sums to move to a new solution at this time without generating any known and significant benefits. Longer term is the intention to revisit the market for possible solutions near to the end of this new

maintenance contract.

AssetWorks can supply the Software currently installed (Fleet Focus) as they own the IPR. There are no reasonable alternatives due to the current contract coming to an end.
