The contractor/concessionaire is an SME

No

VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Notice of modifications to CCS' Learning and Development Framework (RM6145) procured pursuant to Contract Notice 2020/S 127-312150 ("the Framework"):

(i) The estimated values of the two lots under the Framework have been increased as follows:

- Lot 3 has increased from £170,000,000.00 to £255,000,000.00 (ex VAT)

- Lot 6 has increased from £145,000,000.00 to £217,500,000.00 (ex VAT): and

(ii) The Framework term has been extended by 3 months and the Framework will now expire on 16 July 2024.

No other modifications will be made to the Framework.

CCS' view is that the modifications above were permitted pursuant to Regulation 72(1)(b) of the Public Contracts Regulations 2015 (PCR).

Regulation 72(1)(b) provides that a modification is permitted in the following case:

for additional works, services or supplies by the original contractor that have become necessary and were not included in the initial procurement, where a change of contractor—

(i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, services or installations procured under the initial procurement, and

(ii) would cause significant inconvenience or substantial duplication of costs for the contracting authority,

provided that any increase in price does not exceed 50% of the value of the original contract.

In the alternative, the extension to the Framework term by 3 months is non-substantial and therefore is permitted pursuant to Regulation 72(1)(e).

As set out above, these are permitted modifications under the PCR, but, in the event that either of the modifications are deemed not to be a permitted modification under the PCR, then this notice should be treated as providing the requisite notice of a contract award.

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

CCS' view is that the modifications above were permitted pursuant to Regulation 72(1)(b) of the Public Contracts Regulations 2015 (PCR).

Regulation 72(1)(b) provides that a modification is permitted in the following case:

for additional works, services or supplies by the original contractor that have become necessary and were not included in the initial procurement, where a change of contractor—

(i) cannot be made for economic or technical reasons such as requirements of interchangeability or interoperability with existing equipment, services or installations procured under the initial procurement, and

(ii) would cause significant inconvenience or substantial duplication of costs for the contracting authority,

provided that any increase in price does not exceed 50% of the value of the original contract.

In the alternative, the extension to the Framework term by 3 months is non-substantial and therefore is permitted pursuant to Regulation 72(1)(e).

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £315,000,000

Total contract value after the modifications

Value excluding VAT: £472,500,000
