## **UKRI-1244 NQCC WP11 Demonstrator of 2D Array Scaling**

UK Research & Innovation

F01: Prior information notice

Prior information only

Notice identifier: 2021/S 000-013397

Procurement identifier (OCID): ocds-h6vhtk-02bbc8

Published 14 June 2021, 4:15pm

### **Section I: Contracting authority**

#### **I.1) Name and addresses**

UK Research & Innovation

Polaris House

Swindon

SN2 1FL

#### **Email**

[elizabeth.gage@ukri.org](mailto:elizabeth.gage@ukri.org)

#### **Telephone**

+44 7563420665

#### **Country**

United Kingdom

#### **NUTS code**

UK - United Kingdom

**Internet address(es)**

Main address

<https://www.ukri.org/>

**I.2) Information about joint procurement**

The contract is awarded by a central purchasing body

**I.3) Communication**

Additional information can be obtained from the above-mentioned address

**I.4) Type of the contracting authority**

Body governed by public law

**I.5) Main activity**

Other activity

Research

---

## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

UKRI-1244 NQCC WP11 Demonstrator of 2D Array Scaling

Reference number

UKRI-1244

#### **II.1.2) Main CPV code**

- 73100000 - Research and experimental development services

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

This tender is related to UKRI-1244 NQCC WP11 Demonstrator of 2D Array Scaling

The National Quantum Computing Centre has an objective to deliver an early-stage quantum computer (Noisy Intermediate Scale Quantum, NISQ machine) that can outperform conventional computing for a range of tasks, by 2025.

#### **II.1.5) Estimated total value**

Value excluding VAT: £580,000

#### **II.1.6) Information about lots**

This contract is divided into lots: No

### **II.2) Description**

#### **II.2.3) Place of performance**

NUTS codes

- UK - United Kingdom

Main site or place of performance

UNITED KINGDOM

#### **II.2.4) Description of the procurement**

The NQCC has developed a technology roadmap, and has identified a series of technical work packages (WPs) that are suitable for delivery by external contractors. These WPs focus on the delivery of technology solutions according to a set of required technical performance specifications, for both hardware and software, related to quantum computing.

The NQCC intends to hold an event to inform potential suppliers of the tendering process and requirements for two work packages related to superconducting circuits:

WP10 - High fidelity two-qubit superconducting gates.

WP11 - Demonstrator of 2D array scaling for superconducting qubits. WP11 involves the development of an in-lab demonstrator comprising a 2D superconducting qubit array, with one or more 'internal' qubits, that minimises cross-talk and demonstrates minimum fidelities (to be specified).

Further details are to be provided at the event

#### **II.2.14) Additional information**

The Supplier Event for both WP10 and WP11 is being held on 13:30 on 13th July 2021.

Suppliers are to confirm whether they will be attending the Supplier Event by emailing their contact name, organisation name and contact details to [Elizabeth.Gage@ukri.org](mailto:Elizabeth.Gage@ukri.org) no later than Thursday 8th July 2021.

#### **II.3) Estimated date of publication of contract notice**

31 August 2021

---

## **Section IV. Procedure**

### **IV.1) Description**

#### **IV.1.8) Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: No

---

## **Section VI. Complementary information**

### **VI.3) Additional information**
