I.6) Main activity

Water

Section II: Object**II.1) Scope of the procurement****II.1.1) Title**

Pipeline Commissioning Services

Reference number

PA 2022 0713

II.1.2) Main CPV code

- 45000000 - Construction work

II.1.3) Type of contract

Works

II.1.4) Short description

Provision of specialist pipeline commissioning services across all larger pipe diameters (≥200mm) including air swab washing, air disinfection, pipe filling, pressure testing and associated works to bring potable water pipelines into service for customers.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 45232100 - Ancillary works for water pipelines

II.2.3) Place of performance

NUTS codes

- UKE1 - East Yorkshire and Northern Lincolnshire
- UKF2 - Leicestershire, Rutland and Northamptonshire
- UKF3 - Lincolnshire
- UKH - East of England

II.2.4) Description of the procurement

With the significant constraints on water availability in the region in mind, AWS (Anglian Water Services) has developed a low-water commissioning strategy for large diameter pipelines to reduce water footprint, reduce carbon in the production of commissioning water and to allow large pipelines to be prepared for "into supply" service in parts of the AWS region where water is strictly unavailable to commission pipelines conventionally.

This innovative approach to pipeline commissioning includes the application of the following

methods in strategic pipelines of various diameters and of various materials of construction suited to the innovative methods. The innovative methods have been developed and received approval for use by the various AWS asset standards and water quality Groups for SPA (Strategic Pipeline Alliance) according to an agreed protocol to manage risk to water quality and to demonstrate the integrity of the laid pipelines.

The order in which commissioning activities need to be deployed based on these approvals is:

1. Air swab washing
2. Air swab disinfection
3. Filling and sampling (by others) for water quality testing at the AWS laboratory
4. Pressure testing
5. Displacement of pressure test injection volumes & resampling (by others) for water quality testing at the AWS laboratory
6. Water into supply

II.2.11) Information about options

Options: Yes

Description of options

Up to an additional four years' worth of contract extensions can be implemented.

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure with prior call for competition

IV.1.3) Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: [2022/S 000-032031](#)

Section V. Award of contract

A contract/lot is awarded: Yes

V.2) Award of contract

V.2.1) Date of conclusion of the contract

1 May 2023

Section V. Award of contract

A contract/lot is awarded: Yes

V.2) Award of contract

V.2.1) Date of conclusion of the contract

1 May 2023

Section VI. Complementary information

VI.4) Procedures for review

VI.4.1) Review body

Anglian Water Services Limited

Huntingdon

Country

United Kingdom
