## **Section IV. Procedure**

### **IV.1) Description**

#### **IV.1.1) Type of procedure**

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
  - absence of competition for technical reasons

Explanation:

The Service falls within Schedule 3 ('social and other specific services', also known as the "Light Touch" Regime) of the Public Contracts Regulations 2015 (PCR 2015) as amended by The Public Procurement (Amendment etc.) (EU Exit) Regulations 2020

('PPAR 2020').

These contracts were previously let under an AQP model in 2018, to 33 various General Medical Practice providers between 30th October 2018 to 2nd April 2020 (with option to extend for a further 12 months until 2nd April 2021). This was on a zero value basis, with no guarantee of any volume. 'Call off' for a Provider's Services is initiated by the patient's choice of that Provider from a list (managed by the Commissioner) of all Providers holding an AQP Contract.

The AQP was rolled over for a further year post the expiry date of the extension period, as an emergency due to the unforeseeable nature of events during the Covid pandemic, that were outside of the Authorities influence. The Authority is currently in a transitional period with the expectation to be superseded as a statutory body, by an Integrated Care Board in late 2022. The organisation shall have a key function as part of the overall Integrated Care System. At the current time, longer-term strategies across all sectors are under discussion and longer term commissioning decisions and or procurements cannot take place until these legal arrangements are confirmed.

The Authority has therefore taken a decision to award a contract to each of the incumbent providers of MUCS under the AQP as they are considered to be the most technically capable providers in the current environment and within the geography of Basildon and Brentwood, whilst transitioning to the ICB, to ensure quality, safety and consistency in provision of care that meet the needs of the population during this transition period.
