The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

The reagents / kits used in the laboratory equipment must be from the same supplier and is not uncommon to require the OEM supplies for dedicated laboratory equipment. It must be noted that should the test kits / equipment change in mid-study, this would require protocol amendments and dialogue with regulatory agencies to inform on protocol changes and study deviations. This would lead to delays in results as new impact assessments would need to be made detailing the change and gaining the relevant regulatory approvals for a change in support and must mirror those same products used before in order to maintain continuity of test data otherwise, we risk introducing potential ambiguity into the test data results.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract

A contract/lot is awarded: Yes

V.2) Award of contract

V.2.1) Date of conclusion of the contract
