II.1.4) Short description

Greater Glasgow Health Board (more commonly known as NHS Greater Glasgow and Clyde) operates the Beatson West of Scotland Cancer Centre (being the Gartnavel General Hospital and the Lanarkshire Beatson) and had a requirement to replace its treatment Oncology Management System, two treatment planning systems (TPS) and Radiotherapy DICOM Archive under the Scottish Government's Radiotherapy Capital Equipment Replacement Programme (CERP).

This NHS Requirement included the provision for the purchase of the following Products:

Lot 1: Oncology Management System

Lot 2: Treatment Planning System 1

Lot 3: Treatment Planning System 2

Lot 4: Radiotherapy DICOM Archive

Contractors could tender for any single, or multiple lots, up to and including all 4 lots. Separate tenders should have been submitted for each lot. Contractors could submit more than 1 tender for any given lot. A single tender for more than 1 lot combined would not be considered.

II.1.6) Information about lots

This contract is divided into lots: Yes

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £3,186,518

II.2) Description

Gartnavel General Hospital,

Glasgow

and

The Lanarkshire Beatson

University Hospital Monklands,

Airdrie

II.2.4) Description of the procurement

It was envisaged that Treatment Planning Systems 1 and 2 would facilitate different functions in clinical use.

Treatment Planning System 2 was intended primarily as a dose verification and quality assurance tool. It would perform multiple roles including secondary dose calculation for independent verification of monitor units, real time and off-line verification of on-treatment delivery via logging of key treatment variables and EPID Dosimetry, and logging of the department's QA activity.

II.2.4) Description of the procurement

It was envisaged that Treatment Planning Systems 1 and 2 would facilitate different functions in clinical use. Treatment Planning System 1 was intended to be the department's primary pre-treatment planning system for almost all radical and palliative treatments. To that extent the systems required capacity to host a large number of simultaneous users executing a variety of planning functions such as outlining, optimisation and dose calculation.

II.2.5) Award criteria

II.2.4) Description of the procurement

It was essential that the DICOM Archive offered provided a high level of integration, at both the software and hardware levels, with the Beatson's existing imaging facilities and all commonly available oncology management systems and treatment planning systems. The need to duplicate or import and export data and images must have been minimised to maximise service efficiency and work.

VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

Economic operators should approach the contracting authority in the first instance. However, the only formal remedy is to apply to the courts:

An economic operator that suffers, or is at risk of suffering, loss or damage attributable to a breach of duty under the Public Contracts (Scotland) Regulations 2015 or the Procurement Reform (Scotland) Act 2014, may bring proceedings in the Sheriff Court or the Court of Session.
