Direct award justification

Single supplier - technical reasons

Alpha FMC have been integral in the design of the procurement exercise for the Fund Administrator, mapping out our target operating model for the transition to the new supplier and have developed close working relationships across Nest, NT, and State

Street, and have managed and developed the transition program to the new supplier planned for November of this year.

We are at a critical juncture in the program, with transition of over £50billion of assets from one supplier to another taking place in 6 months. It would be extremely risky and impractical to procure a new supplier in the time left in the program, and would put at serious risk the transition timetable.
