Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The products involved are manufactured purely for the purpose of research, experiment, study or development
- The services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

- Additional deliveries by the original supplier

Explanation:

(1) Removal/Reinstallation & Commissioning of Existing Equipment

Allowing a supplier other than the original supplier to remove, transport and reinstall the existing equipment from the Jordanstown Campus to the Magee campus would result in technical difficulties in operation and maintenance of the equipment.

(2) Purchase of Additional Equipment

Regulation 32(5)(b) allows for the extension of the existing Carestream equipment. By purchasing the equipment via Medray, this will allow the University to achieve its teaching objectives of providing a clinical environment for training radiography students in line with an

NHS environment. The additional equipment will run parallel to the existing equipment, sharing the same instrument control, data processing and archiving software packaging, thereby ensuring complete compatibility across the radiography suite
