VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Extension of the skeleton air service for the Highlands and Islands of Scotland to facilitate essential travel during the Covid-19 pandemic while commercial services are not operating. The impact of the ongoing Covid-19 pandemic has led to an increase in the value and duration of this contract.

VII.2.2) Reasons for modification

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

The Covid-19 pandemic has led to the collapse in demand for air travel resulting in the withdrawal of the majority of commercial air services in the UK. The impact of the pandemic has extended beyond the original anticipated timeframe requiring an extension of the

contract and an increase in its value. Maintaining a minimal level of scheduled service to the Scottish Islands is important for the movement of essential workers, NHS patient transfers, blood supplies and tests, cancer treatments as well as Royal Mail deliveries. This is provided for in terms of Regulation 33(1)(c) of the Public Contracts (Scotland) Regulations 2015.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £3,770,616.03

Total contract value after the modifications

Value excluding VAT: £4,100,000
