## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Contract for the Provision of Enterprise Licence Agreement

#### **II.1.2) Main CPV code**

- 48730000 - Security software package

#### **II.1.3) Type of contract**

Supplies

#### **II.1.4) Short description**

The University of Birmingham currently utilises an Identity and Access management solution which manages activities within a range of requirements including system account management, system access management, password security management and privileged access management.

The solution (Onedidentity) currently integrates with multiple business critical systems across the University, which has resulted in substantial investment in terms of integrations into the rest of the technical estate, working processes and staff training. The University of Birmingham intends to re-contract with the current supplier for a five year period. This will ensure that there is sufficient time for the University to undertake a full market testing and subsequent tender exercise to establish and understand the requirements of the University, which will then lead into a supported mobilisation plan.

#### **II.1.6) Information about lots**

This contract is divided into lots: No

#### **II.1.7) Total value of the procurement (excluding VAT)**

Value excluding VAT: £432,055

### **II.2) Description**

#### **II.2.3) Place of performance**

NUTS codes

- UKG - West Midlands (England)

## **II.2.4) Description of the procurement**

Enterprise License Agreement (ELA). The products which are used to make up the University's Identity and Access Management (IAM) system. This is used to provision user accounts and manage their lifecycle, change/reset passwords, grant access to IT resources (RBAC), and grant privileged access to secure systems.

### **II.2.11) Information about options**

Options: No

---

## **Section IV. Procedure**

### **IV.1) Description**

#### **IV.1.1) Type of procedure**

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

The University of Birmingham currently utilises an Identity and Access management solution which manages activities within a range of requirements including system account management, system access management, password security management and privileged access management.

The solution (Onedidentity) currently integrates with multiple business critical systems across the University, which has resulted in substantial investment in terms of integrations into the rest of the technical estate, working processes and staff training. The University of Birmingham intends to re-contract with the current supplier for a five year period. This will ensure that there is sufficient time for the University to undertake a full market testing and subsequent tender exercise to establish and understand the requirements of the University, which will then lead into a supported mobilisation plan.
