### **Changes to notice**

This notice has been edited. The [previous version](#) is still available.

Addition of website link to the associated Student Agreement Transparency Notice

### **Scope**

### **Reference**

C29775

## Description

A collaboration research agreement is being established with the University of Edinburgh to enable the engagement of a student who will undertake a study on smouldering combustion in timber.

This Transparency Notice is being issued alongside a separate Transparency Notice relating to the associated Student Agreement. See here for details:

<https://www.find-tender.service.gov.uk/Notice/013806-2026>

OCID: ocds-h6vhtk-0654c9

INS Atamis ref: C29774

The combined total contract value of both agreements is above the procurement thresholds as per PA23 Schedule 1. Considered individually, each agreement falls below that threshold.

Supplier details: University Court of the University of Edinburgh, under registration number SC005336 incorporated under the Universities (Scotland) Acts and having its main administrative offices at Old College, South Bridge, Edinburgh, EH8 9YL.

## Contract 1. Collaboration Agreement for Study of smouldering combustion in timber

### Supplier

- University of Edinburgh

## **Contract value**

- £60,000 excluding VAT
- £72,000 including VAT

Below the relevant threshold

## **Earliest date the contract will be signed**

1 March 2026

## **Contract dates (estimated)**

- 1 March 2026 to 31 August 2030
- 4 years, 6 months

## **Main procurement category**

Services

## **CPV classifications**

- 73110000 - Research services

## **Contract locations**

- UK - United Kingdom
-

## Participation

### Particular suitability

- Small and medium-sized enterprises (SME)
  - Voluntary, community and social enterprises (VCSE)
- 

## Procedure

### Procedure type

Direct award

### Direct award justification

Prototypes and development

This Direct Award justification is selected on the basis that this is novel research. It is contributing to the research and development against a nuclear package, as this research will feed into the early stages of the shock absorber smouldering rates.

NTS intend to observe an 8 day voluntary standstill ending 25th Feb
