Planning

WCC Weather forecasting services for winter maintenance

Warwickshire County Council

UK2: Preliminary market engagement notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2025/S 000-013859

Procurement identifier (OCID): ocds-h6vhtk-04ff5b ([view related notices](#))

Published 9 April 2025, 10:11am

Scope

Reference

WCC - 22199

Description

WCC is seeking to produce a specification for a weather forecaster which integrates with our 6 Vaisala weather stations and receive data from the 4 additional sensors to help refine the weather forecast. We are looking at a more efficient method of treatment than a one out all out approach to reduce operating costs for the service and reduce carbon emissions.

The weather forecast data needs to be delivered in a format that is accessible 24/7 by the decision makers, we also may have questions around the forecast, especially during snow events, so any forecaster would need to be contactable 24/7 during the winter season.

We need to ensure we communicate effectively with our supervisors, drivers, neighbouring authorities, other relevant third parties and the travelling public, what treatment we are planning and how we are carrying this out so would like the market to

provide some solutions on how this could be achieved easily and effectively.

Contract dates (estimated)

- 1 October 2025 to 30 September 2032
- Possible extension to 30 September 2034
- 9 years

Main procurement category

Services

CPV classifications
