II.1.4) Short description

The Department of Health and Social Care (DHSC) is looking for a supplier to provide a fully managed service, incorporating hosting the solution and maintaining software, hardware and licenses required for effective use of the procured financial consolidation system. DHSC will retain responsibility for setting up system users with access suitable to their roles, ensuring an appropriate level of licenses and support contracts are in place for the volume of users. DHSC currently structure the hierarchy within the system to allow flexible and compliant reporting, analysis and data reconciliation. It is expected that DHSC would continue this maintenance of structures and rules framing the hierarchies. DHSC would also like to procure a technical support service to aid with arising issues and help advance the efficiency and usability of the acquired system. We are publishing this PIN to understand from the market what products are available, high level potential implementation timescales, high level costs and to test whether our requirement is of interest to the market.
