Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure without publication of a contract notice

- No tenders or no suitable tenders/requests to participate in response to negotiated procedure with prior publication of a contract notice
- The products involved are manufactured purely for the purpose of research, experiment, study or development
- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

The UK Ministry of Defence intends to award a contract to BAE Systems (Operations) Limited for the estimated value of £1,639,000 ex VAT for the support for the Hawk TMk2A

Release to Service, pursuant to the Defence and Security Public Contracts Regulations 2011 (DSPCR 2011) using the negotiated procedure without prior publication of a contract notice. In accordance with regulation 4 of The Defence and Security Public Contracts (Amendment) (EU Exit) Regulations 2019 (SI 2019/697) this procurement falls to be regulated under the provisions of the Defence and Security Public Contracts Regulations 2011 as amended (in particular by SI 2019/697 and SI 2020/1450). It is considered that the award of the contract without prior publication of a contract notice in the UK e-notification service (as required by the relevant legislation) is lawful in accordance with regulation 16(1)(a)(ii) of the DSPCR 2011.

UK RAF QFIs and pilots are due to fly on the Qatari owned Hawk MK 167 aircraft on the Joint Hawk Training Squadron currently being stood up at RAF Leeming. Currently, this Hawk TMk2A variant aircraft does not have certification from the Military Aviation Authority (MAA) to operate safely in UK airspace. The UK MOD and 11 Sqn Qatar Emiri Air Force (QEAF) have a critical dependency on the Original Equipment Manufacturer (OEM) of the Hawk TMk2A BAE Systems, to certify the aircraft, when operated in accordance with the Release to Service Recommendation (RTSR), is airworthy and safe in all respects.

This procedure is considered justified for technical reasons under regulation 16 (1)(a)(ii) of the DSPCR 2011. In order to award a UK RTS, there must be adequate evidence artefacts provided by the OEM and accepted by the MAA and Release to Service Authority (RTSA) to support the airworthiness statements. BAES are the OEM and single supplier with the required detailed technical understanding of the aircraft and possession of the technical documentation for the required evidence. The award of this contract allows UK MOD personnel to operate the aircraft under a UK MOD governance framework.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract/concession

A contract/lot is awarded: Yes

V.2) Award of contract/concession

V.2.1) Date of conclusion of the contract
