The service to be commissioned will provide practical help and support to people who have decided to start a new business in West Yorkshire, with a focus on businesses with lower initial growth aspiration and that do not expect to turnover more than £250k in their first 12 months of trading. Although the focus of delivery will be start-up businesses with lower growth plans, the programme will still aim to support and encourage the growth ambitions of start-up business where this is appropriate, including referral to higher growth programmes where this would add value. The focus of this commission is individuals who have made a definite decision to start a business, support is not aimed at those who are still exploring business start-up as an employment option. The start-up support provided by the programme will be open to any sector and to any business operating any legal business model. The programme is expected to deliver both one-to-many support through events, workshops and seminars, and one-to-one mentoring/coaching. The split of this will be determined by the individual respondents to the tender, but the principle of those start-ups with most growth potential getting the most hours of support (including one-to-one) should be considered. The support package will need to cover the key areas of expertise that a start-up business needs to address in order to trade compliantly and successfully. The contract will be for an initial term of 18 months with a value of £1m, with an option to extend based upon successful performance and at the discretion of the CA for a further 18 months and additional value of £1m.
