Tender

## Site Emergency Generator Maintenance

THE PIRBRIGHT INSTITUTE

UK4: Tender notice - Procurement Act 2023 - [view information about notice types](#)

Notice identifier: 2026/S 000-014018

Procurement identifier (OCID): ocds-h6vhtk-05e85e ([view related notices](#))

Published 16 February 2026, 4:45pm

### Scope

#### Description

##### Project Background

The contract is for a single supplier to provide Maintenance and Servicing to the Institute's 10 Emergency standby generators.

Each generator listed below requires two service visits per year, one minor and one major visit.

We expect to be advised if any of the generators require changing or replacing items such as Oil, Oil/Air and fuel filters, coolant, Oil, fuel lines, fuel quality, plugs, leads etc other than detailed in the site maintenance specification doc 3.2. These costs will be extra to contract costs and require approval of additional quotations. Service dates to be set out in advance between the Pirbright maintenance scheduler and company contact. Several visits may have to be arranged due to our building shutdown schedule so it may not be possible to service all the engines in one continuous site visit. It is also suggested that the site has a dedicated engineer who would seek to attain security clearance for the site so as to work independently of engineering services escorting engineers and to have a skill level where they are able to sign on and off work permits in advance and following servicing or breakdown or extra to contract works.

For more information, please see Schedule 5.a - Contract Specification Document - Site Generator.

### **Total value (estimated)**

- £0 including VAT

Above the relevant threshold

### **Contract dates (estimated)**

- 1 May 2026 to 30 April 2029
- Possible extension to 30 April 2030
- 4 years

Description of possible extension:

1x 12 month Optional Extension
