## **Section III. Legal, economic, financial and technical information**

### **III.1) Conditions for participation**

#### **III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions

Bidders will be required to state if any of the exclusion grounds as detailed within Regulation 58 (1) of The Public Contracts (Scotland) Regulations 2015 apply to them.

If required by the bidder's country of establishment, bidders are required to be enrolled in the relevant professional or trade registers within the country in which they are established (in the United Kingdom, the bidder is a company registered with the Registrar of Companies and can provide a certificate stating that he is certified as incorporated or registered or, where he is not so certified, a certificate stating that the person concerned has declared on oath that he is engaged in the profession in a specific place under a given business name).

#### **III.1.2) Economic and financial standing**

List and brief description of selection criteria

Bidders will be required to have a minimum "general" yearly turnover as detailed within the minimum level(s) of standards required below:

Where turnover information is not available for the time period requested, the bidder will be required to state the date which they were setup/started trading.

The Council will use Dun & Bradstreet (D&B) to assist in its determination of the Bidders financial status and risk rating and will require that all Bidders evidence the equivalent of D&B Failure Score of 20 or above.

It is recommended that bidders review their own D&B Failure Score in advance of submitting their tender submission. If, following this review, Bidders consider that the D&B Failure Score does not reflect their current financial status, the Bidder should give a detailed explanation and will be required to provide any relevant supporting independent evidence at request for documentation stage. The Council will review any such information as part of the evaluation of Bidder's financial status. Where the Bidder is under no obligation to publish accounts and therefore does not have a D&B Failure Score, they will be required to provide their audited financial accounts for the previous 2 years as part of the request for documentation stage in order that the Council may assess these to determine the suitability of the Bidder to undertake a contract or contracts of this size. This assessment will consider whether or not the Bidders annual turnover meets the

minimum turnover levels stated previously and whether or not there is any significant financial risk identified. Where the Bidder is a subsidiary of a group but is applying as a separate legal entity and fails to meet the minimum financial turnover requirements or minimum D&B Failure Score (or equivalent) as a company, a parent company guarantee will be required. The parent company must meet the minimum financial requirements as assessed by the Council. The parent company guarantee will be in the form provided in the Tender Documentation (Appendix A1). Where a consortium bid is received, the D&B Failure Score of each consortium member shall be assessed. However, the collective annual turnover of all consortium members will be utilised in the overall assessment of annual turnover. Where the Bidder intends to sub-contract more than 25% of any contract value to a single sub-contractor, a financial report will be carried out on the sub-contractor. The Council reserve the right to request one copy of all sub-contractors last 2 years audited accounts and details of significant changes since the last year end. The Council also reserve the right to reject the use of sub-contractors in relation to the contract, where they fail to meet the Council's minimum financial criteria.

It is a requirement of this contract that bidders hold or can commit to obtain prior to the commencement of any subsequently awarded contract, the types and levels of insurance detailed within the minimum level(s) of standards required below.

Minimum level(s) of standards possibly required

Bidders will be required to have a minimum "general" yearly turnover as detailed below for the last 3 financial years.

Bidding for Lot 1, turnover requirement GBP1,007,500.00

Bidding for Lot 2, turnover requirement GBP216,000.00

Bidding for Lot 3, turnover requirement GBP151,000.00

Bidding for Lot 4, turnover requirement GBP216,000.00

Bidding for Lot 5, turnover requirement GBP151,000.00

Bidding for Lot 6, turnover requirement GBP161,000.00

Bidding for Lot 7, turnover requirement GBP161,000.00

Bidding for Lot 8, turnover requirement GBP277,500.00

Bidding for Lot 9, turnover requirement GBP158,750.00

Bidding for Lot 10, turnover requirement GBP156,500.00

Bidding for Lot 11, turnover requirement GBP628,750.00

Bidding for Lot 12, turnover requirement GBP756,000.00

Bidding for Lot 13, turnover requirement GBP4,719,000.00

Where tenderers are bidding for more than one Lot the turnover requirement will be aggregated for the number of Lots bid for. For example, a tenderer who bids for all Lots, 1 to 13 would require to have a general yearly turnover of GBP8.76M – the aggregated turnover requirement for Lots 1 to 13.

Bidders will require to have the following insurances;

Employer's (Compulsory) Liability Insurance = statutory minimum GBP5M each and every claim.

Public Liability Insurance = minimum GBP5M each and every claim.

Statutory third party motor vehicle cover.

Contractors All Risk Insurance (CAR) = CAR insurance will not be required for normal day-to-day maintenance and repair works. For one off projects the level of CAR insurance will be set by the Council on a project by project basis but, for guidance purposes, the maximum indemnity limit that may be asked for is GBP207,000.00. Bidders are asked to evidence, at request for documentation stage, the level of CAR insurance they have in place. Bidders should note that the provision of CAR insurance is not a bar to being accepted onto the framework but the Council reserves the right not to award a direct call off work package to a bidder where the bidder is unable to provide the appropriate level of CAR insurance suitable for the work package to be carried out. The level of CAR insurance required for a Quotation Procedure (Mini Competition) will be detailed within the Quotation Procedure (Mini Competition) documentation. Bidders who cannot provide the level of CAR insurance required will not be considered for the award of the Quotation Procedure (Mini Competition). The requirement for CAR Insurance will be at the sole discretion of the Council and will be appropriate to the value and risk of the project to be carried out under this Framework Agreement.

Bidders must have a Dun and Bradstreet Failure Score of 20 or above (or equivalent).

### **III.1.3) Technical and professional ability**

List and brief description of selection criteria

Bidders will be required to provide examples that demonstrate that they have the relevant experience to deliver the works/services applicable to the Lots that they are bidding for.

Bidders will be required to confirm their average annual manpower for the last three years and the number of managerial staff for the last three years.

Bidders will be required to demonstrate that they have (or have access to) the relevant tools, plant or technical equipment to deliver the types of works/services applicable to the Lots that they are bidding for.

Bidders will be required to confirm whether they intend to subcontract and, if so, for what proportion of the contract.

Bidders will be required to confirm that they hold a UKAS (or equivalent) accredited independent third party certificate of compliance in accordance with BS EN ISO 9001 (or equivalent) OR have a documented policy regarding quality management which must set out responsibilities for quality management demonstrating that the bidder has and continues to implement a quality management policy that is authorised by their Chief Executive, or equivalent, and is periodically reviewed at a senior management level. The policy must be relevant to the nature and scale of the work to be undertaken and set out responsibilities for quality management throughout the organisation.

Bidders will be required to confirm that they hold a UKAS (or equivalent) accredited independent third party certificate of compliance in accordance with BS OHSAS 18001 (or equivalent) or have, within the last 12 months, successfully met the assessment requirements of a construction-related scheme in registered membership of the Safety Schemes in Procurement (SSIP) forum. OR have a regularly reviewed and documented policy for Health and Safety (H&S) management, endorsed by the Chief Executive Officer, or equivalent. The policy must be relevant to the nature and scale of the work and set out responsibilities for H&S management at all levels within the organisation. The policy must be relevant to the nature and scale of your operations and set out your company's responsibilities of health and safety management and compliance with legislation (NOTE - Organisations with fewer than five employees are not required by law to have a documented policy statement).

Bidders will be required to confirm that they hold a UKAS (or equivalent) accredited independent third party certificate of compliance with BS EN ISO 14001 (or equivalent) or a valid EMAS (or equivalent) certificate OR have a regularly reviewed documented policy regarding environmental management authorised by the Chief Executive, or equivalent. This policy must include and describe the bidder's environmental emergency response procedures including the preparedness and response procedures for potential accidents and emergency response situations that give rise to significant environmental impacts (for example hazardous substances spill control).

Minimum level(s) of standards possibly required

Relevant experience to carry out the Works/Services the bidder is tendering for.

Appropriate level of manpower, management and equipment to service this Contract.

Certified to BS EN ISO 9001 (or equivalent) or have a documented and endorsed policy regarding quality management.

Certified to BS OHSAS 18001 (or equivalent) or have a documented and endorsed policy regarding Health and Safety.

Certified to BS EN ISO 14001 (or equivalent) or have a documented and endorsed policy regarding environmental management.
