Description

Digital Health & Care Wales ("DHCW") intends to award a quantity of FIGMA Inc licences to support teams in iterating design, testing with users, and handing off to developers within a single platform. This initiative aims to deliver consistency, enable faster iteration, and foster seamless communication across multidisciplinary teams.

The FIGMA licences are required to:

Provide a collaborative design tool that streamlines UI/UX workflows.

Consolidate the product design cycle into one platform.

Offer a cloud-based solution to mitigate errors and duplication.

Allow multiple users simultaneously access for improved efficiency.

DHCW is seeking to work together with Figma Inc to commission a number of user licences to support the on-going requirements. This procurement will ensure that DHCW stakeholders have the tools necessary to enhance design processes and deliver high quality outcomes.
