<https://www.networkrail.co.uk>

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Other activity

Railway (Works)

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Eastern Region - Reactive & Small Schemes Framework

Reference number

<https://www.networkrail.co.uk/>

II.1.2) Main CPV code

- 45000000 - Construction work

II.1.3) Type of contract

Works

II.1.4) Short description

Network Rail procured a framework for Reactive and Small Scheme works covering its building and civil assets within the Eastern Region. The types of works to be procured under the framework will be reactive works and small schemes that are of low complexity. Such works predominately impact the operation of the railway and will cover the following categories of works:

Reactive call outs (Emergency & Urgent)

Planned Preventative Maintenance works (PPM)

Small schemes

The Reactive and Small Schemes framework is envisaged to be the Eastern Region's route to market to deliver such projects and requirements under NR's Strategic Business Plan during CP7.

The framework will be lotted as outlined below covering the geographical scope of the Eastern Region (<https://www.networkrail.co.uk/running-the-railway/our-regions/eastern/>):

Lot 1 - Civil Assets (Covering North & East, East Coast and East Midlands Routes)

Lot 2 - Civil Assets (Covering Anglia Route)

Lot 3 - Building Assets (Covering North & East, East Coast and East Midlands Routes)

Lot 4 - Building Assets (Covering Anglia Route)

To ensure supply chain resilience NR will retain the flexibility to allow Suppliers to work across Lots but only restricted to their specific discipline. This will only apply in instances where it has been deemed by NR that Suppliers within the relevant Lot under the same discipline cannot fulfil Network Rail's requirement(s).

The initial term of the framework is 5 years with the option to extend for a further two periods of one year each.

The indicative values provided for each of the Lots are estimates only, these are based on CP7 Strategic Business Plan budgets rather than delivery plan values. As such, they are not guaranteed and do not act as a minimum or maximum workbank value for the control period or a volume guarantee.

The maximum value of the framework exceeds the combined value of the lots, this is so as the value is inclusive of the estimated values of optional extensions for the framework.

Examples of work types to be covered and delivered under the scope of the framework include (but are not limited to):

- o Geotechnical - small scheme emerging works (from reactive), Maintain KVLs
- o Maintenance of foot bridges, under bridges, overbridges, tunnels, culverts, structural integrity
- o Rock cuttings, soil cuttings, earthworks first response etc
- o Buildings - small scheme emerging works (from reactive)
- o Structures - small scheme emerging works (from reactive), Structural integrity

Negotiations to be conducted as part of the tender process will relate to the price element only. Participants will have an opportunity to update the pricing elements of their tenders following negotiations. Initial Tenders will be evaluated but feedback will not be shared with participants. Only feedback on Final Tenders will be shared following completion of evaluation of the tenders.

II.1.6) Information about lots

This contract is divided into lots: Yes

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £1,146,851,865.05

II.2) Description

II.2.1) Title

Lot 1 - Civil Assets (North & East, East Coast & East Midlands)

Lot No

1

II.2.2) Additional CPV code(s)

- 45100000 - Site preparation work
- 45200000 - Works for complete or part construction and civil engineering work
- 45213321 - Railway station construction work
- 45221112 - Railway bridge construction work
- 45221220 - Culverts
- 45233161 - Footpath construction work
- 45233253 - Surface work for footpaths
- 71332000 - Geotechnical engineering services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

Main site or place of performance

NR Eastern Region, North & East, East Coast & East Midlands routes

II.2.4) Description of the procurement

The types of works to be delivered are for Civil assets; these fall into the following categories:

- Reactive call outs (Emergency and Urgent)

- Planned Preventative Maintenance works (PPM)
- Small schemes

Examples of the types of works to be delivered for each category will include but not limited to:

Reactive Call outs (Emergency and Urgent)

- Flood response, debris removal, desilting and over pumping, drainage clearance
- Bridge strike response, parapet repairs, fall arrest
- Monitoring/rectifying earthwork movement, landslips, vegetation management
- Urgent concrete/brickwork repairs, footbridge reinstatement

Planned and Preventative Maintenance

- Concrete/brickwork repairs to walls, bridges, tunnels and culverts
- Bridge maintenance/repair – concrete, timber, masonry, steelwork
- Earthwork maintenance, light rock scaling, vermin and vegetation management
- Ditch installation and clearance, culvert lining, jetting/CCTV

Small Schemes

- Non-complex structures renewals
- Non-complex earthwork renewals
- Significant campaign works across a high number of locations
- such as installation of fall prevention across multiple routes

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: Yes

Description of options

The initial term of the framework is 5 years with the option to extend for a further two periods of one year each.

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2) Description

II.2.1) Title

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2) Description

II.2.1) Title

Lot 3 - Buildings (North & East, East Coast and East Midlands)

Lot No

3

II.2.2) Additional CPV code(s)

- 45210000 - Building construction work
- 45213300 - Buildings associated with transport
- 45213321 - Railway station construction work
- 45300000 - Building installation work

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The types of works to be delivered are for Building assets; these will fall into the following

categories:

- Reactive call outs (Emergency and Urgent)
- Planned Preventative Maintenance works (PPM)
- Small schemes

Examples of the types of works to be delivered for each category will include but not limited to:

Reactive Call outs (Emergency and Urgent)

- Roof repairs, collapsed drainage, Water supply issues
- Platform repairs, Building repairs
- Canopy repairs, Lineside building repairs
- Footbridge repairs, Car park repairs
- Vehicle mitigation repairs, Fencing repairs

Planned and Preventative Maintenance

- Fall arrest PPM
- Canopy gutters and Gulley PPM,
- Visual inspections of lineside buildings
- Actions arising from Legionella risk assessments
- Chemical services
- Asbestos inspections and removal

Small Schemes

- Refurbishment of working at height systems, access walkways and fall restraint systems
- Platform refurbishment, both timber and non-timber systems
- Surface repairs to platforms, car parks and walkways

- Concrete and brick repairs to platforms, buildings and walls.
- Structural repairs to footbridges, platforms, buildings
- Fuel and water tank renewals
- Canopy Renewals and structural repairs.
