Framework operation description

Successful providers will be appointed to an approved list on the Intend system. Work packages/contracts will be assigned through a 'call off process' or mini competition using In-Tend.

Mini competitions will be sent to all suppliers who correspond to the lot the work falls under each contract will be called off on the following basis: price, availability and creative approach [as indicated in their tender response]. Price evaluation for each individual requirement will be applied at 50%, and suppliers should be using the pricing supplied at

tender stage as a basis for the work.

Following the award to the framework, mini-competition for both Lot 1 and 2 will be evaluated on the following criteria per project:

Price: 50%

Quality: 50%

On occasion Historic England reserve the right to direct award a call-off in these circumstances:

- should the geographical location of a provider would represent a significant saving in the carbon (CO₂e) expended undertaking the project
- cases when a production requires delivery in less than two weeks.
- Cases where a supplier provides a unique artistic approach that is required for the production of a specific requirement.
