Description

This contract is for the upgrade of the existing lighting infrastructure at the National Oceanography Centre, covering approximately 1,067 fittings, to a modern, smart LED lighting system. The upgraded system will feature self-testing emergency lighting, delivering enhanced energy efficiency, improved lighting control, and reduced maintenance requirements across corridors and stairwells.

The scope includes the full supply, installation, configuration, and testing of all lighting fittings. The project will make use of existing infrastructure where feasible and will ensure integration with systems and services provided by the current supplier as required.
