Low Carbon offsite construction DPS

**II.1.2) Main CPV code**

- 45211000 - Construction work for multi-dwelling buildings and individual houses

**II.1.3) Type of contract**

Works

**II.1.4) Short description**

The London Housing Consortium (LHC) (acting as the Central Purchasing Body for the South West Procurement Alliance (SWPA)), are consulting on the potential establishment of a DPS Agreement for Construction of residential dwellings (including any associated community buildings and facilities) incorporating low energy offsite system across the South West. The DPS is aimed at delivering offsite housing, apartments, care homes and multi-occupancy dwellings including zero carbon solutions. This DPS application process will run in conjunction with a new digital toolkit from Constructing Modern Methods (CMM). CMM was developed as a concept in a previous piece of research funded by the Local Government Association and conducted with Bristol City Council (BCC) and Bristol Housing Festival (BHF) to understand what resources might make the widescale adoption of modern methods of construction and offsite housing solutions more feasible. The form of the DPS will be subject to a pre-tender engagement process, commencing with this PIN and is proposing to hold pretender market engagement for prospective tenders. Please note that market consultation documents will be available from 16:00 noon on the date of publication of this PIN via Procontract: <https://procontract.due-north.com/Procurer/Advert/AdvertSummary?projectId=35227cbb-9185-eb11-810c-005056b64545&projectStepId=37227cbb-9185-eb11-810c-005056b64545>
