The Authority reserves the right to exclude a potential tenderer if the estimated annual contract value of between £600,000 and £700,000 is greater than 50% of the potential provider's turnover.

The Authority will allow the potential provider to demonstrate it has the necessary financial capacity to deliver the contract by other means such as a deed of guarantee from its bank or insurance company or, if appropriate, its parent company.

The Authority will consider all aspects of the potential tenderer's financial status if it is considering rejecting a potential provider's application, e.g. turnover, profit, net assets, liquidity, gearing and capacity. The Authority requires a potential provider to have a minimum current ratio of 1.0 and a minimum acid test ratio of 0.8. An independent financial assessment may be used from a reputable credit rating organisation as part of this process.
