Defence

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Project Mojave

Reference number

707965453

II.1.2) Main CPV code

- 73435000 - Test and evaluation of military aircrafts, missiles and spacecrafts

II.1.3) Type of contract

Services

II.1.4) Short description

The Royal Navy, part of the UK Ministry of Defence, intends to award a Single Source Non-Qualifying Defence Contract valued at up to £1,500,000 (ex VAT) with General Atomics Aeronautical Systems Limited ("the Contractor") for a period of [7] months for the delivery of work to undertake trials/experiments in order to demonstrate a threshold capability for a Short Take off and Landing Uncrewed Air Vehicle (UAV).

In accordance with regulation 4 of The Defence and Security Public Contracts (Amendment) (EU Exit) Regulations 2019 (SI 2019/697) this procurement falls to be regulated under the provisions of the Defence and Security Public Contracts Regulations 2011 as amended (in particular by SI 2019/697 and SI 2020/1450). Prior publication of a contract notice in the Official Journal of the European Union is no longer appropriate.

It is considered that the award of the contract without prior publication of a contract notice in the UK e-notification service (as required by the relevant legislation) is lawful in accordance with regulation 16(1)(a)(ii) because the works, supplies or services can be supplied only by General Atomics Aeronautical Systems Limited as competition is absent for technical grounds. The contract will enable work to be undertaken as a proof of concept utilising existing technology/services provided by General Atomics Aeronautical Systems Limited in order to carry out experiments that will determine the future scope to address a number of capability problem sets and will support future investment decisions. In addition and in the alternative, the contract is for research and development services within regulation 16(1)(c).

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £1,250,000

II.2) Description

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure without publication of a contract notice

- The products involved are manufactured purely for the purpose of research, experiment, study or development
- The works, supplies or services can be provided only by a particular economic operator for the following reason:

- absence of competition for technical reasons

Explanation:

The Royal Navy, part of the UK Ministry of Defence, intends to award a Single Source Non-Qualifying Defence Contract valued at up to £1,500,000 (ex VAT) with General Atomics Aeronautical Systems Limited ("the Contractor") for a period of [7] months for the delivery of work to undertake trials/experiments in order to demonstrate a threshold capability for a Short Take off and Landing Uncrewed Air Vehicle (UAV).

In accordance with regulation 4 of The Defence and Security Public Contracts (Amendment) (EU Exit) Regulations 2019 (SI 2019/697) this procurement falls to be regulated under the provisions of the Defence and Security Public Contracts Regulations 2011 as amended (in particular by SI 2019/697 and SI 2020/1450). Prior publication of a contract notice in the Official Journal of the European Union is no longer appropriate.

It is considered that the award of the contract without prior publication of a contract notice in the UK e-notification service (as required by the relevant legislation) is lawful in accordance with regulation 16(1)(a)(ii) because the works, supplies or services can be supplied only by General Atomics Aeronautical Systems Limited as competition is absent for technical grounds. The contract will enable work to be undertaken as a proof of concept utilising existing technology/services provided by General Atomics Aeronautical Systems Limited in order to carry out experiments that will determine the future scope to address a number of capability problem sets and will support future investment decisions. In addition and in the alternative, the contract is for research and development services within regulation 16(1)(c).
